## MANY SENATORS JOIN IN DEBATE

Discuss Resolution Asking State Department for Text of Peace Treaty.

## SOME CLASHES RESULT

Senator Johnson of California, Author of the Resolution, Starts Debate by Charging Supporters Were Concealing Something.

Washington, May 24.—The senate debated for three hours the peace treaty, with its league of nations covenant, and at adjournment the resolution went over as unfinished business. The resolution merely calls on the state department to furnish the senate with the complete text of the treaty, but as the debate progressed, discussion shifted to the merits of the league and treaty themselves. A dozen senators, including leaders on both sides, were drawn into the discussion and sharp exchanges presaged the bitterness of the fight that is to come. Opponents of the treaty in its present form lined up generally for the resolution and those supporting the treaty draft led the opposition. There was no attempt to reach a vote and some senators predicted it would be several days before the preliminary skirmish would come to a decision.

Johnson Starts Debate. Senator Johnson of California, Republican, author of the resolution, started the debate, charging that the treaty supporters had "something to conceal." This drew an indignant reply from Senator Hitchcock of Nebraska, ranking Democrat of the Foreign Relations committee, who declared the President was following well-established precedent in keeping the treaty text in confidence and that for the senate to request him to do otherwise would be a "gross breach of international proprieties."

Republican Leader Lodge, prospective chairman of the Foreign Relations committee, replied to Mr. Hitchcock, declaring there was no impropriety in the resolution unless it were improper to "call attention to the new method of 'open covenants openly arrived at.'"

Every shopkeeper in Germany, he said, was reading the treaty as made public at Berlin, yet the senate was provided only with a "worthless" official abstract.

Senator Johnson said the treaty had been made public in Germany, and, turning to the Democratic side of the chamber, declared the only reason for not giving it out here "is that you've something to conceal."

Senator Hitchcock, Democrat, of Nebraska, retiring chairman of the Foreign Relations committee, said the resolution violated senate procedure and urged that it be referred to committee. He declared that never before had the senate asked for a treaty before it was completed.

## GOES TO CONSULT KOLCHAK

U. S. Envoy Leaves Tokio to Meet Russian Omsk Head.

Paris, May 24.—Roland S. Morris, American ambassador to Japan, has left Tokio for Russia to confer with Admiral Kolchak, head of the Omsk government, according to a report received from reliable sources here. This information followed closely the revelations that while still refusing to recognize the Kolchak government, despite pressure from certain allies, the American government has prepared "an interesting proposal" which will be forwarded to Kolchak.

This proposal, it is understood, will suggest recognition of Kolchak's authority over the territory he controls, provided he sets up a democratic government, or perhaps gives proof of his ability and willingness to do so.

## PROPORTION IS INCREASED

U. S. Plans Call for 108 Big Guns to 10,000 Rifles.

Washington, May 24.—Artillery estimates of the War department provide for 108 guns for every 10,000 rifles in each division, according to an official table made public, in which ordnance equipment of this and other countries is compared. During the war the ratio per 10,000 rifles was: United States, 60; British, 89; French, 103.7.

## CHINESE WILL SIGN TREATY

Retain Reservations Relative to Kiao Chau and Shantung.

Paris, May 24.—The Chinese delegation to the Peace conference is understood to have reached a decision to sign the treaty of peace with reservations relative to Kiao Chau and Shantung. It is said this will not affect the treaty as a whole and will preserve the rights of China.

## Pays Death Penalty in Chair.

McAlester, Okla., May 24.—T. R. Braught, electrocuted at the state penitentiary here for the murder of Otis Robbin in 1916, was the first white man to pay the death penalty in the electric chair in Oklahoma.

A. O. STANLEY  
One of Two New Senators Facing Contest.

Two senators who took their seats will face contests. Democrats will try to oust Truman H. Newberry, Michigan, charging his election cost too much, and Republicans will try to unseat Augustus O. Stanley, on charges of having used improper means to obtain his election.

## ORDERS 200,000 TONS

Director General Hines Accepts Bids for Steel Rails.

Companies Quote Uniform Figures Based on Agreement With Industrial Board.

Washington, May 24.—Orders for 200,000 tons of open hearth rails have been placed by the Railroad administration with six steel companies, which in response to a request for bids, quoted uniformly a price based on the agreement between the steel interests and the recently dissolved industrial board of the Department of Commerce. Director General Hines, whose refusal to abide by the agreement was an influential factor in the dissolution of the industrial board, in announcing the orders, said they were placed "under protest" and with the "emphatic disapproval of the prices and the manner in which they were established."

The price submitted by all of the bidders was announced by Director Hines as \$47 a ton. The committees submitting bids were Carnegie Steel company, Illinois Steel company, Tennessee Coal and Iron company, Colorado Fuel and Iron company, Bethlehem Steel company, and Lackawanna Steel company.

## PROTESTS PARTISAN SPEECH

G. A. R. Objects to Kansas City's Memorial Day Plan.

Wichita, Kan., May 24.—Resolutions adopted by the Kansas G. A. R., and a letter written by National Commander-in-Chief C. E. Adams, who is in attendance at the state encampment now in session here, protest against former President Taft making an address on the league of nations at Kansas City on Memorial day. The resolutions were adopted unanimously, by the Kansas G. A. R., and have been forwarded to Mr. Taft.

They were offered because "citizens of Kansas City, Mo., have designated May 30 for holding a big partisan meeting and have extended an invitation to our honored former President William H. Taft, to address the same."

## STANDING ARMY OF 100,000

Kahn Also Will Demand Early Return of Americans.

Washington, May 24.—Creation of a standing army of 100,000 men, supported by a system of universal military training, is the program favored by Representative Kahn, California, chairman of the House military affairs committee.

Mr. Kahn said that when he appeared before the House to recount his two months' investigation in Europe, he will demand early withdrawal of the entire American army from Europe.

## GENERAL ASSEMBLY QUILTS

Presbyterians Adopt Several Interesting Resolutions.

St. Louis, May 24.—The 131st general assembly of the Presbyterian church, U. S. A., adjourned after postponing final action on the question of granting church suffrage to women, adopting a resolution urging individual churches to engage in newspaper advertising and a resolution calling upon the Peace conference and Congress to give equal consideration to Ulster before taking any action on Ireland's pleas for self determination.

## Two Italian Envoys Replaced.

Paris, May 24.—Count Imperiali, Italian ambassador to Great Britain, and Senator Crespi, Italian food commissioner, have replaced Antonio Salandra and Marquis Salvago-Raggio on the Italian peace delegation, it was officially announced.

## All Troops Except Regulars Out of France June 12

(By United Press) Washington, May 24.—All American combat troops except regular army units will have sailed from France by June 12. General March announced today allied military forces on the west front are ready for action.

## Recognition of Omsk Government Probable

(By United Press) (United Press Staff Correspondent.) Paris, May 24.—The big four today continued discussion of the Russian question which again has come to the front as the result of a tentative proposal of the allies to give some degree of recognition to Admiral Kolchak, director of the Omsk government. Bakmetieff, who was former Premier Kerensky's ambassador to France, called on Col. House yesterday.

## Tank Explosion Injures 26 Persons

(By United Press) Bayonne, N. J., May 24.—Twenty-six persons were injured many seriously when gasoline exploded at the Standard Oil plant here this afternoon. Employees said it is not known if any were killed.

## Frenchman Will Fly From Africa to Brazil

(By United Press) Paris, May 24.—Lieut. Roger, French aviator, started from Villa Coublay early today for Morocco in an attempted trans-Atlantic flight. He expects to fly from Africa to Brazil.

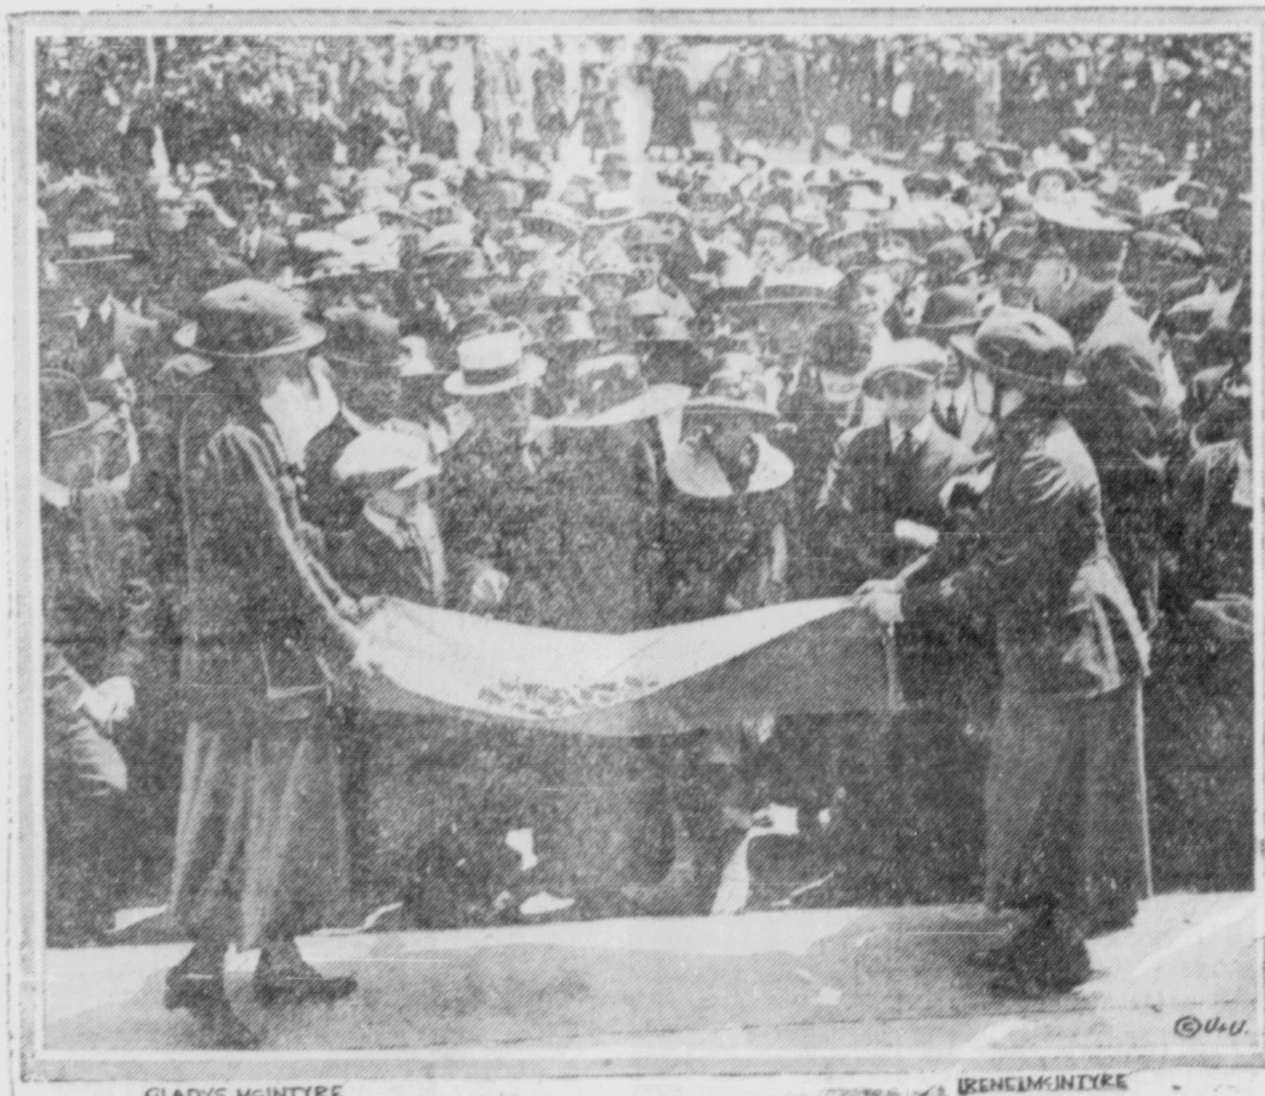

## Bolsheviki Reported Evacuating Petrograd

(By United Press) Copenhagen, May 24.—The bolsheviks were reported today to be evacuating Petrograd in the face of the continued advance of the Estonian and Finnish armies. Unconfirmed dispatches stated the soviet forces were blowing up the ammunition dumps near the city.

## Hun Peace Chief Returns to Versailles

Versailles, May 24.—Foreign Minister Brockdorff-Rantzau returned here today from Spa where he conferred with the government heads.

## Salvation Army Lassies, Cited For Bravery, Gathering Funds From Fifth Avenue Crowds for \$13,000,000 Drive

Hurrying from Boston, where they were cited for bravery while tending to the wants of the soldiers on the firing line, the Misses Gladys and Irene McIntyre went to New York to aid the Salvation Army drive for \$13,000,000. This photograph shows the sisters, who helped to make the doughboys famous in France, collecting funds in Fifth Avenue.

## Congressman Van Dyke Buried Today

(By United Press) St. Paul, May 24.—Congressman C. C. Van Dyke was buried at three o'clock this Saturday afternoon. Funeral services were held at the residence this morning, when hundreds accompanied the body to the capitol where it lay in state until the afternoon with a military guard of honor.

## Bay Liner Burns on Virginia Coast

(By United Press) Norfolk, Va., May 24.—The old Bay liner Virginia burned to the waters edge early this morning near Smith's point. It is not known yet whether any lives were lost. The City of Baltimore picked up some survivors, and other boats from Baltimore and Washington are understood to have rescued some. Newport News, Va., May 24.—The lives of two hundred and forty persons were endangered when the steamer Virginia burned in Chesapeake Bay early today. Many leaped into the water. Some are missing.

## Expect Treaty to be Signed by June 10

(By Fred S. Ferguson, Staff Correspondent, United Press) Paris, May 24.—The treaty will be signed by the allied and German delegates between June 10th and 15th or the armistice will be broken. This was forecast in peace circles today. The Germans are expected to hand the allies their counter proposals by May 29. These will be presented in book form and will be almost voluminous as the peace treaty.

## Eight Transports Arrive Today

(By United Press) New York, May 24.—Eight troop ships bearing nearly twenty-two thousand troops were due to arrive in New York harbor today. The American and Agamemnon wireless they would dock this afternoon. Others expected were the Radnor, Dakotan, Oisego, Santa Paula, Santa Barbara and Santa Teresa.

## St. Paul Department Store Damaged by Fire

St. Paul, May 24.—Fire from unknown origin early today damaged the Husch Bros. department store here to the extent of more than a hundred thousand dollars. The entire stock was damaged by fire or water and five floors burned.

## NC-4 Flight is Again Postponed

(By United Press) Washington, May 24.—Unfavorable weather again today caused postponement of the flight of the NC-4 from the Azores to Portugal. It is believed here the plane may start tomorrow.

## FIGHT ON LEAGUE OPENS

Battle to Separate It From Treaty Starts in Senate.

Sherman Delivers Address Opposing Covenant and Asking Its Isolation From Pact.

Washington, May 24.—Both houses of congress are working under a tentative program providing for unusual rapidity in disposing of the most important items of the great mass of legislative matter before them. The house, with the woman suffrage constitutional amendment and the \$45,000,000 urgent deficiency appropriation bill disposed of, planned to dispose of the \$15,000,000 Indian appropriation measure which failed of passage last March.

Sherman to Oppose League. In the senate Senator L. V. Sherman, republican, of Illinois, delivered a prepared address on his resolution opposing the League of Nations and providing for its separation from the peace treaty. Senator James Reed, democrat, of Missouri, and others are expected to follow, each giving his views on peace and the League of Nations.

Rapid work in organizing senate committees was reported by both republican and democratic committees, which have deferred announcements of details. As soon as the senate committees are organized immediate consideration is planned of the house woman suffrage resolution. It is planned to bring the measure to a vote early next month and announcement by Senator Fredrick Hale, republican of Maine, who previously opposed the resolution, that he now will support it, raised further hopes of its advocates for adoption. Organization of house committees also is scheduled for completion by the first of next week.

## Housing Inquiry Asked.

Washington, May 24.—Investigation of all acts of the bureau of industrial housing and transportation, either through its own agents and employees or those of the United States housing corporation, is called for in a resolution introduced for Representative Clark of Florida.

Poincare to Visit Belgium. Brussels, May 24.—President Poincare of France will visit Belgium about the middle of June, Le Soir announces.

## Brazil President-Elect Coming.

Paris, May 24.—Dr. Epitacio Pessoa, president-elect of Brazil, and his family will sail from Brest for the United States on board the French steamer Jeanne D'Arc on June 5.

JOHN A. CHALONER  
Accepts Reduction in Judgment Awarded Him for Libel.

John Armstrong Chaloner, Merry Mills, Va., millionaire, accepted a reduction to \$17,500 of the \$30,000 judgment awarded him by a federal jury in his \$100,000 suit for libel against the New York Evening Post. The Evening Post's counsel has not yet approved the compromise verdict.

## SEES GLEAM OF LIGHT

Elbert H. Gary Hopes for Reduced Taxation.

Official of Steel Corporation Declares Industries Require Encouragement.

New York, May 24.—"It is time that industry and enterprise in the United States shall be encouraged and protected instead of being attacked, interrupted and destroyed," Elbert H. Gary, chairman of the United Steel corporation, declared here.

Speaking at the fifteenth general meeting of the American Iron and Steel Institute, of which he is president, Mr. Gary said that whether the United States was to retain its financial, commercial and industrial leadership "depended upon the attitude of our own people in official or private life."

After pointing to expectations of a bumper wheat crop, Mr. Gary said there was "still room in this country for the optimist, but little space for the pessimist," adding: "If the tax assessor and collector will only permit us to retain a little fairer percentage of our earnings we shall be happy, and we are beginning to see a gleam of light on this subject."

## THIRTY-TWO THOUGHT DEAD

Crews Searching Ruins of Starch Plant for Bodies.

Cedar Rapids, Ia., May 24.—Twelve bodies have been recovered from the ruins of the Douglas Starch company's plant, and wrecking crews are still searching the debris for the bodies of 20 more employees believed buried. Of the 40 workmen injured and taken to hospitals all but a few are out of danger.

## OBTAINS RESTRAINING ORDER

Brewers Temporarily Can Make 2.75 Per Cent Beer.

New York, May 24.—Federal Judge Mayer announced that he would issue an injunction restraining the government from interfering with the production of beer of 2.75 alcoholic content pending a judicial determination of the brewers' claim that such a beverage is not intoxicating.

## REDS EVACUATING MOSCOW

London, May 24.—The bolsheviks have begun the evacuation of Moscow, according to reports brought from Petrograd to Copenhagen by travelers and forwarded by the Exchange Telegraph company. Typhus is raging in Moscow and the situation there is considered desperate.

## HERMAN KNOCKS OUT ERTLE

New Orleans Boy Wins Battle in Fifth Round.

Minneapolis, May 24.—A champion is Pete Herman of New Orleans. The bantam king proved it. He knocked out Johnny Ertle, Northwest aspirant for the title, in the fifth round of their battle at the Kenwood armory, displaying a punch that was as perfect as anything of its kind yet seen in a Minneapolis ring.

Ertle was game, dazed and weak, plainly not even semi-conscious of his surroundings, and suffering from the powerful thumps shot to his jaw by Herman. The Kewpie tried hard to arise and finish the contest.

## HUNS DESERVE HARSH TERMS

Reply of Allies Made to German Protest Against Economic Conditions of Treaty.

## ENEMY ONLY TO BLAME

Seem to Lack Appreciation of the Enmity of Their Conduct—American Mandate Urged for Turkey and Armenia.

Paris, May 24.—The Allied council of four, making public the enemy's note of complaint and the answer to it, informed the German delegates at Versailles that Germany's economic status under the terms of the peace treaty is the result of her own behavior, particularly through the ruthless submarine warfare.

The Allies reply also declares the German plea exaggerated.

The Allies state that the loss to world shipping was 13,000,000 tons. Germany is to restore only 4,000,000 tons.

Germany pleads that it will be unable to feed 67,000,000 people. The reply says 6,000,000 will be taken out of German control and that German agriculture is in better shape than that of Poland, Belgium or northern France.

German complaint: Food producing area in east taken away. Reply: Germany can import food as England does.

German complaint: One-third of coal and three-fourths of metals taken. Reply: Nearly all French coal mines destroyed. Germany can import raw materials.

German complaint: The German population will suffer under the treaty, described as a "death sentence." Reply: All countries are suffering as a result of the war and there is no reason why Germany, which was responsible for the war, should not suffer.

## American Mandate Urged.

Henry Morgenthau, former American ambassador to Turkey, has submitted a memorandum to President Wilson concerning the proposal that the United States should become mandatory for Constantinople.

It is understood that he favors the inclusion of Constantinople, Anatolia and Armenia under one mandate, as being advantageous for administrative purposes by combining a large section of northern Asia Minor under one central administration.

## Commission to Syria.

President Wilson's recommendation relative to accepting a mandate for Constantinople will depend largely upon the report of a commission created for the investigation of conditions in Syria. Henry Churchill King, president of Oberlin college, and Chas. R. Crane will be the American representatives and will have colleagues from the allied and associated powers.

The commission will leave immediately to study conditions in Turkey. Until its report has been received it is not probable any action will be taken concerning the supervision of Constantinople.

## Reparation Terms Modified.

The council of four has agreed on a reply to the German note concerning reparations. The note will be handed to the German plenipotentiaries at Versailles and will outline some modifications in the terms regarding reparations as they now appear in the peace treaty.

This will be the first modification of the terms of the peace treaty as agreed on by the plenary conference. Consideration of Germany's protest regarding the Saar valley also has resulted in modifications of the terms of the award.

## PLANE SEEN IN MID-OCEAN

Believed to Hawker's by Captain of Cable Ship.

London, May 24.—The cable ship Faraday reports that it sighted the red light of an airplane during the early hours of Monday at 50 degrees 23 minutes north latitude and 30 degrees west longitude approximately midway between England and Newfoundland, and in the course which would have been followed by Harry G. Hawker in his attempted flight between the American continent and Ireland.

## DELAYS SUFFRAGE MEASURE

Senator Underwood Objects to Placing Bill On Calendar.

Washington, May 24.—Efforts to expedite passage of the woman suffrage constitutional amendment resolution in the senate by sending it directly to the calendar, where it could be called up at any time, instead of first referring it to the woman suffrage committee, failed in the senate through objection of Senator Underwood, Democrat, of Alabama, opponent of the measure.

## Ohio May Buy Coal Tract.

Columbus, May 24.—Ohio may go in to the coal business for itself. State officials are discussing the advisability of buying a 7,000 acre tract of coal land for \$200,000. This would save the state \$400,000 a year.

Brainerd Vs. Little Falls  
SUNDAY  
Koering Field, 3:15 P. M.

The storik's arrival caused great rejoicing in the hearts of Mr. and Mrs. Guy L. Weaver May 20 when it left in their care a six and a half pound daughter. The Weavers formerly resided in Brainerd and removed to their homestead near Williams, Beltrami county, four years ago, where they have made good and expect to make final proof on their land this fall. This addition to their family crowns their happiness with its brightest jewel and Leslie Lyod, the nine year brother, is already planning the structure of doll furniture for baby sister. Mrs. Weaver was formerly Miss Clara Fuller.

Plans Plane Trip to Pole.  
Dayton, Ohio, May 24.—To discuss with Orville Wright, airplane inventor, the likelihood of using the airplane for North Pole trips, Vilhjalmur Stefansson, international explorer, paid a visit to Wright here. Stefansson declared he believed it possible to construct a special type of air machine that would carry a party of explorers to the field of study at the North Pole. He plans, if arrangements can be made, to attempt such a trip this year or the first of the coming year.

Thin Watches Not New.  
The thin watches that have been fashioned for several years are not a new model. P. V. Bergen of Bound Brook, N. J., has a thin watch that is more than 100 years old. It is an open-face watch, three-eighths of an inch thick. The movement is one and three-quarters inches in diameter and the watch itself two inches. The movement is full plate, lever escapement and opens at the front. The case is beautifully made and of 18 karat gold. The watch is marked "Meulder & Giglio, Malta."

Farmer's Good Work.  
Some people find it impossible to do two things at the same time. The farmer often does four, and does them well—he walks, thinks, talks, and smiles all at once.

## MARINES LAND AT SMYRNA

American Sea Soldiers Will Protect the Consulate.

Washington, May 24.—Landing of American marines from the battleship Arizona to guard the American consulate and other United States interests at Smyrna, was reported to the State department.

Resignation of the Turkish cabinet, announced in press dispatches as a protest to the Turkish government against the Greek occupation of Smyrna, also was mentioned in the cable.

## RED RESISTANCE WEAKENS

Drive on Petrograd is Producing Good Results.

London, May 24.—The operations of Bolshevik forces against Petrograd are having great and rapid success, according to reports received here from Helsinki. The correspondent of the Daily Mail at the Finnish capital says that the Bolshevik resistance seems to be broken and that they have lost several thousand prisoners and 30 guns. A great number of machine guns and five armored trains were also captured.

Plans Plane Trip to Pole.  
Dayton, Ohio, May 24.—To discuss with Orville Wright, airplane inventor, the likelihood of using the airplane for North Pole trips, Vilhjalmur Stefansson, international explorer, paid a visit to Wright here. Stefansson declared he believed it possible to construct a special type of air machine that would carry a party of explorers to the field of study at the North Pole. ## A FIGHTING CHANCE

If you do not enjoy Health and have tried other Health Methods without any results TRY CHIROPRACTIC. There is nothing unpleasant about CHIROPRACTIC SPINAL ADJUSTMENTS. The time required is very short—just a minute or two—as often each week as the CHIROPRACTOR judges to be necessary. When your spine is in good order, the pressure on the spinal nerves will be eliminated and Health will be the result. This fighting chance is yours. Take it. Consultation and Spinal Analysis Free.

at 7:30. Rev. Chas. N. Sennett, pas-  
tor.

Presbyterian Church  
Children's Day exercises will be  
held in the Presbyterian church Sun-  
day morning at 10:30 o'clock. The  
program in part will be as follows:

Girl Singer, Whose Voice Charmed Our Boys  
at the Front, Returns With a Novel Scarf

MISS HELEN COLLEY

Thousands of soldiers, marines  
and sailors know Miss Helen Colley  
of Philadelphia. But they know her  
better as the "Song in Your Heart  
Girl." As a member of the Y. M. C.  
A. "Over There Theatre League" she

sang on practically every battle  
front. When she returned recently  
she brought with her a unique souv-  
enir—a scarf bearing the insignia of  
every division she helped to enter-  
tain.  
Song—"God Cares for You and Me"  
Beginners Class  
Recitation—"The Dandelion"  
Eva Russell  
Song—"Shine, Shine"  
Primary Pupils  
Recitation—"The Sun"  
Four Primary Pupils  
Song—"Beautiful Summer Days"  
Juniors  
Recitation—"God's Messengers"  
Four Juniors  
Missionary Exercise—"The Sunday"  
The Sunday School Door  
Twelve Boys and Girls  
Solo—"Bringing in the Sheaves"  
Georgia Drexler

Address—W. H. Wagner, superintendent  
Singing by the Quartet  
Reception of members into the  
church from the Sabbath school and  
baptism.  
Evening service at 7:45 o'clock.  
The subject of the sermon will be  
"The Hinderer." Christian Endeav-  
or at 6:45. Harry Hughey, leader.  
All welcome. W. J. Lowrie, pastor.

## Birthday Surprise

Mrs. John Pihlstrom 721 N. E.  
Pine Street was pleasantly surprised  
Friday afternoon by a number of her  
neighbors and friends, the occasion  
being her birthday. Among other  
pretty and useful gifts she received  
a most beautiful linen table cloth  
and a lovely bouquet of white roses,  
a dainty luncheon was served.  
Mrs. H. M. Johnson furnished an  
elaborately decorated birthday cake.  
They all departed declaring they had  
a fine time.

## Twilight Workers

The members of the Twilight  
Workers society of the Swedish Luth-  
eran church enjoyed a picnic supper  
at O'Brien's cottage on Clearwater  
lake Friday evening.

## Mineral That Can Be Molded.

Charles E. Sweet has discovered a  
preparation of silver which may be  
made in a plastic form like wax or  
clay, and also thinned down to the  
consistency of paint, according to the  
Little Journal, Cambridge, Mass. Cop-  
per, copper alloys and bronzes may be  
worked in the same manner. By simple  
technology, the preparation may be  
reduced to the pure metal without  
any change in its form or shape.

A sculptor may work it in the rough  
or in relief, just as he does his usual  
materials, or in dilution it may be ap-  
plied to a metallic surface with a  
brush. It greatly simplifies the prob-  
lem of artistic work of a high order,  
although, of course, it is more expen-  
sive than stamped wares. Medallions  
and figures may thus be presented in  
the original without the need of cast-  
ing, and such articles as silver sets  
may be made of which every member  
is original and unique. It provides a  
new medium for artists. The inven-  
tion has been patented.

## Life of Candle Flame.

Laboratory experiments conducted  
of late have shown that a candle flame  
will become extinguished when the  
oxygen content of the atmosphere in  
which it is burning falls to about 45  
per cent. Sulphur stops burning when  
all but 13.5 per cent of the oxygen in  
an inclosed space has been exhausted.  
The case of charcoal, however, is  
notable. Combustion continues until  
only 9 per cent of the oxygen remains.

## WILL NOT BE MADE RELIC

Clemenceau's Coat to Be Missing From  
Collection of Mementoes of the  
World's Famous.

Apparently M. Clemenceau's prac-  
tical mind and hate of show are going  
to deprive his admirers of the right  
of gazing at the famous perforated  
coat and waistcoat in one of the Paris  
museums, for this is not to be in-  
cluded among the relics of greatness  
for a future age, like Nelson's coat and  
the Napoleon relics. There have been  
some very curious souvenirs of the  
kind, apart from the half-smoked  
cigars of royalties which are treasured  
by some. Most curious of all undoubt-  
edly was Lord Anglesey's "leg." Lord  
Anglesey lost a leg at Waterloo, and it  
was buried in the garden of the villa  
to which he was taken. In after years  
he used to recall how parties of people  
visited the spot "to view the grave."  
A relic of another kind was George  
II's famous coat, and it was a pleas-  
ant trait in the fiery little king that he  
squeezed himself at Dettingen into the  
coat he had worn years before at  
Oudenarde. Horace Walpole's "re-  
searches after Queen Mary's comb,  
Wolsey's red hat, the pipe which Van  
Tromp smoked during his last sea  
fight, and the spur which King William  
struck into the flank of Sorrel's" are  
famous.—Westminster Guardian.

## He Wears a Necklace.

Did you ever hear of a man wear-  
ing a necklace? Well, that is what  
the male Canadian warbler does, while  
on the female of this attractive bird  
there is only the slightest indication  
of a necklace, says the American For-  
estry association, Washington, which  
is conducting the nation-wide bird-  
house building contest among school  
children. The warbler's necklace of  
black spots shows up very strikingly  
on his olive green and yellowish throat  
and breast. On the back the bird is  
of a slate gray color with the tail more  
of an olive brown tone. This is a very  
lively bird. It is very seldom still  
for more than a few seconds before it  
dashes out at some tempting bit to  
eat. It is partial to the wooded  
banks of streams. It usually keeps  
in underbrush near the ground.

## ACTION BETTER THAN WORDS

How Lieutenant Colonel Whittlesey  
Answered the Boche Demand  
That He Surrender.

Lieut. Col. Charles W. Whittlesey,  
commander of the "Lost Battalion,"  
and winner of the first congressional  
medal of the war, has been dubbed  
Goto-Hell Whittlesey, because of his  
reputed pithy answer to the German  
demand to surrender. Now comes  
Lieut. Arthur McKeogh, adjutant of  
the battalion, with the complete story  
which he tells in Everybody's. "As  
a matter of fact," writes Lieutenant  
McKeogh, "the colonel sent back no  
written answer whatever. To those  
nearest him he did suggest that the  
Boches could take the well-known easy  
descent. But the most complete, prac-  
tical and splendid answer that could  
have been made to the German propo-  
sal he made as he finished reading  
the note.

"On the side of the hill our airplane  
hanson agent had spread out his panel  
to indicate the battalion's position to  
the divisional planes that had been try-  
ing to drop message cylinders and  
even food within reach of the com-  
mand. That panel was an equilateral  
cloth triangle, more than six feet long.  
Moreover, with the exception of a small  
black patch, it was white. The  
thought sprang into the colonel's mind  
that, inclined as it was on comparatively  
open ground, the big signal device was  
probably visible in the Boche lines.  
And it was white. Messages and food  
were essential enough, God knows, but  
suppose the Germans mistook that  
panel for surrender!"  
"Whit ordered it taken in at once.  
That was his answer."  
"What words could have been as  
magnificent!"

## GOOD NEWS

Many Brainerd Readers Have Heard  
It and Profited Thereby

"Good news travels fast," and the  
bad luck of sufferers in Brainerd are  
glad to learn where relief may be  
found. Many a lame, weak and ach-  
ing back is bad no more, thanks to  
Doan's Kidney Pills. Our citizens  
are telling the good news of their ex-  
perience with this tested remedy.  
Here is an example worth reading:  
A. D. Lindberg, 729 Elm St., Brain-  
erd, says: "Some time ago I was an  
awful sufferer from kidney complaint.  
The kidney secretions were unnatur-  
al and I had a dull, heavy pain in  
my back. It was almost impossible  
for me to bend over and when I  
aught cold, the trouble was worse.  
I got Doan's Kidney Pills at John-  
son's Drug Store and they rid me of  
the pains and other kidney ailments.  
I haven't had any kidney trouble to  
speak of since."

Price 60c at all dealers. Don't  
simply ask for a kidney remedy—get  
Doan's Kidney Pills—the same that  
Mr. Lindberg had. Foster-Milburn  
Co., Mfgs. Buffalo, N. Y.

## OPPOSE REPEAL OF DRY STATUTE

Baptists Approve Resolution Asking Congress to Retain War-time Prohibition.

## MILDLY SCORE WILSON

Convention Expresses Surprise and Regret at Recommendation Made by President in Message to Special Session.

Denver, May 24.—A resolution asking congress not to follow the recommendation of President Wilson for the repeal of wartime prohibition, as it affects wines and beers, was adopted by the Northern Baptist convention.

The resolution says the delegates have read with great surprise and profound regret the recommendations of President Wilson in his last message to Congress that it should rescind the act enforcing wartime prohibition insofar as it applies to wine and beer.

The resolution points out that with hundreds of thousands of boys still in the army and navy who should be protected against "evils arising from the sale of intoxicants," and with the food question "still acute," the considerations, which furnished the basis for the enactment of war prohibition still exist.

The convention had before it one of the big questions of the meeting, the proposal to create a general planning board to co-ordinate church finances. The plan, devised to put religious work on a basis of efficiency, is the result of months of work of the laymen's committee and is a subject concerning which there is a great divergence of views.

The proposal contemplates the creation of a representative assembly in which each state and each Baptist convention department will have representation. This assembly will meet once each year to receive estimates from each department of church work for the coming year and prepare a budget so that all departments can be financed through one general campaign, leaving each department free to devote all its time to constructive work. Advocates of the plan were confident that the convention ultimately would endorse the report.

## SEVERAL DIE IN ERUPTION

Volcano Stromboli, in Sicily, Becomes Violently Active.

Rome, May 24.—The volcano of Stromboli is in violent eruption, according to reports received here. Several persons were said to have perished and many have been injured. Rescue parties were reported to be en route to the island from Messina. Stromboli is a volcanic island in the Mediterranean off the northern coast of Sicily. The volcano, which forms the greater part of the island, is more than 3,000 feet high. It has been in almost constant eruption for 2,000 years.

## U. S. LEGATION IS BOMBED

Attempt Made to Destroy Building at San Jose, Costa Rica.

Washington, May 24.—An attempt was made to demolish the American legation building at San Jose, Costa Rica, by a bomb, according to advices today to the state department. The bomb was placed near the entrance to the legation reception room but its explosion caused only slight damage. The state department announced that it had ordered an investigation. The legation is in charge of American Consul Benjamin T. Chase.

## Icebergs.

Icebergs do not form at sea, but are masses detached from the glaciers which form on the land and project into the sea, where great blocks break off and float out to sea. There is hardly any limit to the size of these masses, and as ice is lighter than water they may float a long time with a large part of their bulk beneath the surface and melting gradually by contact with warmer water.

## OFFICERS OF ARMY HAVE A COMPLAINT

SOME ABROAD WISH TO RETURN AND MANY HERE WOULD LIKE TO GO OVERSEAS.

### THEIR HINTS DISREGARDED

Military Men Are Not Permitted to Have Their Wives With Them in Europe, but Rule Doesn't Apply to Civilians.

By EDWARD B. CLARK.

Washington.—Officers of the regular army cannot complain publicly concerning things and treatment to which they object, for if they did they would be court-martialed. The same rules which govern the regulars hold with officers of the National army, but inasmuch as the latter do not look forward to long continued service they manage to get their grievances before the public when regular army officers, with their future at stake, are deterred from so doing.

Over in France and in Germany today are thousands of officers of the army who have not seen their wives and families for from eight months to two years. There seems to be no present prospect that the majority of these officers will be able to see the loved ones at home for many months to come. Many of them naturally want to be relieved and ordered home, their places to be filled by officers of equal rank and of proper experience who never have been abroad, and who are strongly desirous of service overseas.

Some of the men now in France or Germany served for a long time on the border before they were ordered to the American expeditionary forces. They were separated from their families during their border service and the time spent there plus the time spent abroad makes the separation a long one. None of these officers has complained publicly, but privately one can hear from the relatives of the exiled ones some pretty drastic criticism of the present order of things.

### Regular Officers Want to Go Across.

About 40 per cent of the regular army officers were sent to Europe. Among the 60 per cent that were left in this country there probably was not one man who did not earnestly desire to spill the seas and to get into the trenches. Now even though the war is over they are still anxious to go because of the deep interest in matters over the sea and because of the change of service that it will give them. The army officers over there want to come over here and those over here want to go over there, but so far as can be determined the military powers that be are paying no attention to the daily suggestions which reach them concerning the propriety of such a course.

Some of the soldiers of the United States army who went over to Europe to risk their lives, and who still are there, knowing that they cannot get leave to return to the family fireside temporarily, would be glad if they could secure permission for their wives to cross the water for a month or so in Paris or some other city.

There is some bitterness in the comment on this subject. Men who went over to Europe as civilians to follow the pursuits of peace are allowed to have their wives with them. The volunteers for safe billets in civil organizations during the war, army men say, get all the favors. As one man here has put it, all that the fighter can do is to look at the photograph of his wife, and ease his mind by a little "cussing" of the pampered American civilians in France who have their wives with them.

### Reason in Their Bitterness.

There are certain ranking officers in the United States army now in France or Germany whose deeds probably will live in history long after those of some of the American civilians in minor places who are now on the European continent. However, the eighth assistant secretary of the subordinate council of penwipers can take his wife to France without trouble, while the Liggett, the Bullard, the Dickmans and the other lieutenant and major generals must sit by lonely campfires or within the lonely walls of shell-shattered billets, thinking of families, but never seeing them.

It has been suggested that the reason that no army officer's wife may go to France is that she will turn her husband's attention away from his duties. An army officer, however, generally is a pretty well disciplined sort of man. Moreover, he has disciplinary powers over him. Is it possible that civilians in minor capacities who have gone to France under government pay have no duties to perform or that they are of such slight moment that their wives' presence will in no way interfere with the work on hand?

So far as can be determined, there are only three or four American army officers in France whose wives are in that country. These are men who happened to be in Europe when the war broke out and whose wives also happened to be there. One officer, not a regular, managed to secure his discharge from the service while he was still in France, and the instant that he dropped the khaki for "civil" clothes, his wife was given a passport and allowed to go to France to join him. The army, to mix figures of speech, is not kicking out loud, but there is a good deal of sub-current discontent because the non-fighters seemingly are getting the favors.

Scene from "The Bird of Paradise" Coming at the Park Theatre Wednesday May 28

## Marshal Petain to Visit the U. S.

By WILLIAM PHILIP SIMMS, (United Press Staff Correspondent)

Paris (By Mail).—Marshal Petain expects to pay a visit to America as soon as circumstances permit.

There are few leaders of men more likable than Petain. His tastes are simplicity itself. He lives simply and dresses simply. When I saw him at his headquarters he was wearing a horizon-blue uniform, without an inch of braid of any description. Only his seven stars, on each sleeve, to show his rank, gave his dress even the slightest glint. But even these stars were small and of dulled silver. He wore no service stripes though entitled to the maximum, which is six. On his breast only one bit of ribbon was pinned—without the decoration itself—and this was the "Medaille Militaire." Ordinarily officers are not entitled to this; only privates and non-commissioned officers are regularly eligible. But officers who have performed extraordinary services for their country are awarded the medal and though owning about all the decorations there are, Marshal Petain wears but one and that the simplest of the lot.

The Marshal's cuff buttons were of white metal. They could not have cost more than a few cents each. His leggings were of the knitted variety.

In short Marshal Petain is a plain but neat soldier utterly without gewgaws and dazie. He carries his brilliancy in his head.

Petain received the American correspondents at Chantilly to talk about his trip to the American Army bases of Supply.

His comparisons were interesting. In the days of Napoleon, he pointed out, when armies numbered about 200,000 and were generally on the move they lived on the country, needed little transport and few bases. Nowadays armies number millions of

men and their movements are comparatively limited. So, after a very few days, were they dependent upon the localities wherein they are operating, they would be foodless and supplyless.

Thus stupendous bases of semi-permanent character are necessary to keep a modern army fed and equipped and between these bases and the front a vast system of transport must be kept circulating.

The backbone of the American "SOS" or "Service of Supplies" the Marshal pointed out, was the ship. Every ton of food and equipment had to be brought across the Atlantic. The three naval bases converged on one central base, at Tours, the pretty French inland city to the southwest of Paris. Reserve depots were located also at other points—but likewise operating through Tours. Thousands of miles of specially laid railways were built connecting the seacoast bases and Tours and Tours with reserve depots and Tours with advanced bases.

"Americans did work in five or six months," declared Petain, "which had it been undertaken by the French before the war, would have required five or six years to complete."

The whole work was "a veritable marvel," the Marshal said, and "in every way worthy of all the best traditions of the country which performed them."

### Golden Eggs.

The value of the eggs and poultry produced every year in the United States is now \$750,000,000, or more than that of all the gold, silver and diamonds produced in a year in the whole world. There are about three hens to a person, and each hen lays on an average 80 eggs a year. The best layers produce as many as 250 a year. Farmers' flocks consist on the average of only about 40 birds, but even at that they contribute notably to a good living on the farm.

## Founder of Boy Scout Movements, Who Is Forming Committee With World-Wide Scope

SIR ROBERT BADEN-POWELL LADY BADEN-POWELL MRS. JULIETTE LOW

Lieutenant-General Sir Robert Baden-Powell, founder of the Boy Scouts of America, has arrived in this country to form a committee for the formation of an international committee embracing officials of the Boy Scout movement throughout the world. He came from Canada after touring Europe with this object. One of the main features of his visit will be a well-known rally on May 17 in Central Park, New York, at which there will be a mobilization of 20,000 Boy Scouts of America. In this photograph Sir Robert is seen after his arrival in Boston from Newfoundland with Lady Baden-Powell (center) and Mrs. Juliette Low. Mrs. Low is founder and president of the Girl Scouts of America. Lady Baden-Powell is Chief Scout Guide of the English Girl Scouts.

## "Gee-Whiz! How it Hurts!" "The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order."

"Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

## AMUSEMENTS

### "The Bird of Paradise"

"The Bird of Paradise," Richard Walton Tully's romantic drama of the Hawaiian Islands, produced by Oliver Morosco, will be at the Park Theatre Monday evening, May 27. This novel play with its wealth of beautiful scenery, its native band of Hawaiian singers and dancers will be seen here.

The story of the play deals with the downfall of one white man through the insidious influence of the tropics, and the uplifting of another through the pure influence of an American girl. Through it all runs the tragic love story of Luana, the pretty little Hawaiian Princess, who thinks she can hold the love of her American husband with her lips and her arms, and failing to do so, gives herself as a human sacrifice to save her people from the wrath of God's Pele.

Mr. Morosco will present a new-comer in the part of Luana, in Miss Rita Reilly, a young lady who has not yet passed her teens, but of whom great things are promised in the dramatic line. Others in the cast are Brandon Evans, Guy Harrington, Jane Haven, Taylor Carroll, and the Hawaiian singers and players.

### At the Best Sunday

"Blind Man's Eyes," starring Bert Lytell, which will be shown at the Best Theatre on Sunday, is a powerful drama of love and hate—passion and intrigue, giving the popular actor a role of wide variety which calls for heart-stirring emotion and appealing sympathetic comedy. It is a story of the deep wrong done a man through circumstantial evidence—where he is made a plaything of fate—a toy of destiny. Into this dark and tragic life comes the love of a girl—a girl who trusts her instincts rather than the words of others, and whose belief in him brings new courage and, in the end, complete vindication to the man she loves. The play is one of dramatic intensity lightened by flashes of rich humor for which the young actor is noted and loved, and contains a romance which will live like a beautiful legend of abiding love.

## SILVER IS KING IN ARIZONA

Old and New Mines Are Being Opened After Peace Brought Slump in Copper.

Silver is king again in Arizona, says C. P. Reiniger, president of the Association of Arizona Mining Men, according to the Philadelphia Ledger's Phoenix correspondent. With the copper market stagnant as a result of the cessation of war requirements, the demands for white metal are pouring in from all quarters of the globe. Many of the producers are replacing their copper handling equipment with plants to turn out silver.

"There is a big demand for silver in China and India," says George D. Bethune of Globe. "The United States government is filling it at \$1 an ounce, the same price at which it is supplying 200,000,000 ounces of the metal to the British government on contract."

Years ago, when Tombstone was at the height of its fame, Arizona was a great silver producer. Then came the slump. Copper was discovered. Last year, according to the estimate of the United States geological survey, Arizona produced \$102,000,000 worth of copper. "Give us silver" was the

## FINANCE COMMITTEE EXAMINING FUNDS

Chairman H. F. Michael Reads its Report to the Council at Friday evening Meeting

### NO WAGE SCHEDULE ADOPTED

Deferred until Finance Committee Reports Condition of Various Funds of the City

In presenting the report of the finance committee to the council at Friday evening's special meeting, Chairman H. F. Michael said the chairman of every committee on the council should keep himself posted as to the particular fund drawn on and that the object was to keep within the limit and under no case to overdraw. Such figures as he furnished were tentative only, as no one knew how taxes would be paid up.

Mr. Michael called attention to the condition in the city charter which makes a city officer or alderman personally liable when funds are overdrawn.

He also urged that the city attorney familiarize himself with all provisions of the city charter and amendments so as to aid the council in its deliberations.

### Finance Committee Report To the Members of the Brainerd City Council:

Your finance committee would like to be able, at this time to make a report of the conditions of each of the various funds of the city, and to give you an appropriate estimate as to the amount available in the various funds and the probable fixed expenditures for the coming year, that you may be intelligently guided in your work.

The fact that we are working on an entirely new financial plan as outlined by the amendments to the city charter, that your city clerk is new at his task and data is not yet available and that two of the three members of this committee also deem it wise to await the report and recommendations of the public examiner, to be completed in a few days, before outlining the finances of the year.

In the meantime your committee recommends that utmost caution be used until the data is available.

The charter amendment increases some funds very materially, but other funds will require very careful planning if they are not overdrawn.

Your committee will soon be able to keep you advised as to the condition of each of the several funds and believes it will be advisable to refer the matter of any expenditure of any moment to this committee before final action is taken.

Our purpose as a committee shall be to advise you that you may prevent any overdrafts on any of the several funds, as provided by our charter, and if possible to guide the council in finishing the year without the stringency which has so often characterized the closing months of each year.

We do not believe it would be a crime to close the year with a little balance in those funds, the expenditure of which is discretionary with the council.

Respectfully submitted,  
Brainerd, Minn., May 23, 1919.

Signed,  
H. F. MICHAEL,  
F. M. KOOP,  
ANDREW G. ANDERSON

**Alderman F. M. Koop**  
On this finance report Mr. Michael had the hearty cooperation and experience of F. M. Koop former president of the city council and also formerly a member of the finance committee. Mr. Koop is ably versed in the statistics of Brainerd, tax matters, and has a fund of knowledge which enables him to easily scan any section of the city and give its rating as regards prompt payment of taxes.

**Mayor F. E. Little**  
Mayor F. E. Little explained his position on police matters and that no promises had been made on police salaries. No salaries could be raised until it was known just how the funds stood.

There was a general discussion on the wage question and it ended when a motion made by Alderman Rasmussen and seconded by Alderman Huggins, carried, that the wage question regarding city employees be laid over until the finance committee had completed and presented its report.

**Sewer Contracts Let**  
To Illstrup & Olson of Minneapolis was awarded sewer contracts D 8, F 2 and F 3, and to the Sherlund Co. of Brainerd F 1. To the city attorney for further examination was referred No. P 1.

The council elected as sinking fund commissioners J. W. Koop, A. G. Larquist and Erick Kronberg.

City deposits were apportioned among the banks, 40 per cent to the First National bank, 50 per cent each to the Citizens State and the Brainerd State banks.

Mayor Frank E. Little was assigned a room in the city hall for his office. He will use the room to be

vacated by the city engineer, the latter will use the room to be vacated by the tie plant, and the tie plant office will move to where the county agent was, paying a rental of \$25 a month.

The park board was granted the carnival privilege for two years. Permission was given to use designated streets for the carnival coming early in June.

In the discussion on street carnivals, Alderman Michael said that personally he was not in favor of them, and intervening street intersections were assigned the carnival company to house its tents, Laurel from 5th to the bridge.

Alderman Michael brought up the need of street sprinkling. On motion of Alderman Rasmussen it was referred to the street committee. Alderman Huggins stated that many cities did their own sprinkling and Alderman Lyons mentioned a new session law permitting cities of the fourth class to levy for sprinkling.

Alderman Gus Anderson reported on the rental of rooms in the city hall. Arrangements were then perfected leasing new quarters to the tie plant, shifting the city engineer and giving the mayor quarters.

### Handling Waterworks Laying

City Engineer Campbell spoke of the work of laying pipe for waterworks, of various building operations now undertaken by the city and wished to have an understanding as to how the work was to be managed. \$15,000 has already been turned over to the city as credit on waterworks bonds sold, being the 5 per cent accompanying a successful bid. \$100,000 is to be paid the city July 1.

Material had to be ordered for the pumping plant, etc., and Mr. Campbell asked if he was to work alone or in conjunction with the water and light board or to have the board act as advisor, or if the purchasing committee of the council was to pass on purchases, etc.

On motion of Alderman Michael, seconded by Alderman Andrew Anderson, carried, the purchasing committee of the council is to confer with the water and light board and bring in its recommendations for the council as a whole to act on and ratify.

Mayor Little called attention to the need of inspectors to pass on pipe bought.

The chief of police was granted his request for a new badge.

Alderman Gus Anderson called attention to a bad place in the street near the K. A. Gustafson store and it was referred to street committee and city engineer.

Alderman Andrew Anderson called attention to the proposed road work of P. M. Zakariassen and said he was not in favor of any more material as a top dressing resembling that previously used.

Alderman Michael desired the purchasing committee to get bids on printing city charter in book form, which carried.

### BIDS WANTED

Bids will be received up to 8:00 p. m., June 2nd, 1919, for the furnishing of meals for city prisoners, by the City Council of the City of Brainerd, Minn.

The council reserves the right to reject any or all bids.

May 21st, 1919.

L. D. GREENO,  
City Clerk.

## TOURISTS ARTERY LEADS THRU CITY

Permanent Organization of Northern Division, Mississippi River Scenic Highway Effected

### IMMENSE TRAVEL ON ROUTE

County Director C. L. Mott to Organize Crow Wing County for Marking the Trail

The permanent organization of the Northern Division, Mississippi River Scenic Highway was perfected at a meeting of representatives of the counties in Minnesota and Iowa through which the thoroughfare is routed and cities along the big tourist artery from New Orleans to Lake Itasca will soon have the benefit of the immense travel certain to result. It is freely predicted by men making a study of tourist travel from the states south that this will be one of the most popular and best patronized route of any of the highways leading from Dixie land to the picturesque and beautiful northland.

The central division will be organized at Muscatine, Iowa the 28th; of this month and the southern division within a very short time. Cities all along the route are already keen rivals in their plans for beautification, establishment of hotel and garage accommodation and general plans for the entertainment of touring parties.

### How Financed

It was decided to issue membership cards at \$2 per annum, one-half of the money raised to be retained by the county and the other half to be turned over to the executive committee of the division association for a general expense fund. In addition, the following schedule of community assessments was unanimously adopted: Cities and villages of 1,000 population, \$10; fifteen hundred \$15.00; two thousand to two thousand five hundred, \$25; three thousand to six thousand, \$50; six thousand to ten thousand, \$75; ten thousand or over \$100. (minimum assessments.)

A handsome booklet, illustrating the points of interest along the route will be issued later, the same to be compiled under the supervision of the executive committee which is composed of the officers of the organization. Towns along the route and in the organization will be furnished with copies of the booklet, which it is aimed to make one of the most attractive ever issued by a highway organization. Each division will issue a similar booklet and it goes without saying that there will be keen rivalry and that the big highway will receive unlimited advertising.

### Trail Extended

It was unanimously voted to extend the trail from Itasca Park to Park Rapids, Nevis, Akeley and Walker on the return trip, thus making a terminal loop and taking in additional pretty towns in the lake region.

Remidji, Park Rapids, Walker and other towns of the northern section of the highway were well represented at a meeting of the board of directors, held at the St. Paul association rooms Friday noon, May 23. F. T. Lincoln, secretary of the Northern Division, attended this conference, returning on the night train. C. L. Mott, in county director and will soon organize the county for making the trail and other work necessary to put Crow Wing county on the map as one

of the progressive counties along the big tourist artery.

### FISHING FOR PIKE

Fine Catches Recorded at Gull Lake and Mille Lacs Lake—Biting Fine

Mille Lacs lake is gaining a great reputation as being fine fishing grounds for pike. Mere novices in the gentle art of angling are reporting catches. Rev. Father J. J. O'Mahoney caught several. In his party were B. C. McNamara, Giles J. O'Brien and Wm. J. Garvey, all catching fish.

John Hessell and party brought in a fine mess of fish. Gull Lake, also near Brainerd, offers excellent fishing. Both lakes are within easy access of Brainerd and automobiles quickly traverse the roads.

Dr. H. G. Ingersoll and party were very fortunate in the big catch they made at Mille Lacs.

At Gull lake Rev. Frederick Erington caught a nine pound pike which put up quite a fight.

### Pumping Equipment Flanged Pipe and Fittings Reinforced Concrete Reservoir

Brainerd, Minnesota, May 25. Notice is hereby given that sealed proposals will be received by the City Council of the City of Brainerd, Minn., until 7:30 o'clock p. m. on the 2nd day of June, 1919, for furnishing f. o. b. factory with freight allowed to Brainerd of certain equipment and materials and for the construction of a reinforced concrete reservoir required for the improvement of the water works system, in accordance with the plans and specifications therefore, as follows:

1st: For the pumping equipment consisting of two motor and engine driven 3-stage centrifugal fire pumps, each of 1000 G. P. M. capacity, two motor and belt driven vertical centrifugal low service pumps, each of 900 G. P. M. capacity, one vertical motor driven centrifugal low service pump of 1200 G. P. M. capacity and two motor driven sump pumps.

2nd: Approximately \$7,500.00 worth of flanged pipe, valves and fittings required for the pumping plant.

3rd: A reinforced concrete reservoir of 800,000 gals. capacity.

Separate bids must be made for each of the above divisions.

Bids must be on blank forms furnished for that purpose and must be accompanied by a certified check made payable to the City for 10% of the amount of the bid.

Plans and specifications may be seen at the offices of the undersigned and of L. P. Wolff, consulting engineer, St. Paul, Minn.

The right is reserved to reject any or all bids.

By order of the City Council.

R. T. CAMPBELL,  
City Engineer.

5-24, 31

### BIDS WANTED

Bids will be received up to 8:00 p. m., June 2nd, 1919, for official publications for the ensuing year, by the City Council of the City of Brainerd, Minn.

The council reserves the right to reject any or all bids.

May 21st, 1919.

L. D. GREENO,  
City Clerk.

### MORE WATER, BOYS

When you water the garden give it a good drenching, but not while the sun shines. Learn all about gardening from the booklet the National War Garden Commission, Washington, will send for two-cent stamp for postage.

### REMEMBER NOVEMBER

That is the time to think about while making your Victory Garden, says the National War Garden Commission, of Washington.

# Look inside the lid!

If it hasn't this trademark,  
it isn't a Victrola

You can readily identify the Victrola by the famous Victor trademark, "His Master's Voice." It is not a Victrola without the Victor dog. This trademark is on every Victrola. It guarantees the quality and protects you from inferior substitutes.

The word "Victrola" is also a registered trademark of the Victor Talking Machine Company. It is derived from the word "Victor" and designates the products of the Victor Company only.

As applied to sound-reproducing instruments, "Victrola" refers only to the instruments made by the Victor Company—the choice of the world's greatest artists.

Look inside the lid—insist upon seeing the famous Victor trademarks. On the portable styles which have no lid, the Victor trademark appears on the side of the cabinet.

H. F. Michael Co.

### NO PIGS IN CITY

Industry Thrived in War Period but  
Pence Puts a Quietness to the  
Business

Pig raising in city limits thrived when Hoover boosted the pig at your home idea in war times, but it has been frowned on in peace times and so no more squeals will be heard in Brainerd city limits this summer.

### Card of Thanks

We wish to thank friends and neighbors for the kindness and sympathy shown us during the illness and the passing away of wife and mother, Mrs. Richard Peterson. Your many acts of kindness will always be held in grateful remembrance.

Mr. Richard Peterson  
and family.

11p.

### Jefferson's Wisdom.

Thomas Jefferson said: "I have often thought that if heaven had given me a choice of my position and calling, it should have been a rich spot of earth, well watered, and near a good market. No occupation is so delightful to me as the culture of the earth."

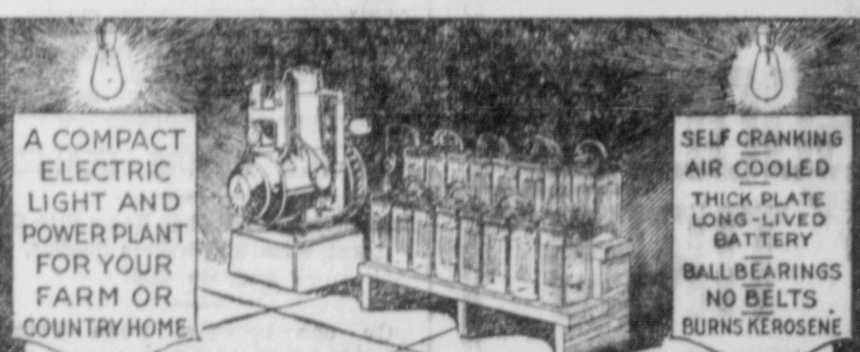

### Notice to Owners and Keepers of Dogs

Take notice that the city ordinances No. 21 and 150 of the City of Brainerd as amended require each and every dog owned, kept or permitted to be kept on or about any premises in the City of Brainerd, to be duly licensed on or before June 15 of each year.

TAKE NOTICE FURTHER that unless you procure such license for each and every dog so owned or permitted to be kept by you immediately complaint will be made against you forthwith in the Municipal Court of said city for such violation of said ordinances, and you will be subject to a fine of \$10.00 and imprisonment until such fine is paid not exceeding 10 days in jail.

Signed,  
CHARLES H. VARNER,  
Chief of Police.

## The Heel of Achilles in Tires

The weak spot in a tire is where tread stops and sidewall begins.

On any road but smooth, flat pavement, the spears of the road—stones and broken rock—are constantly jabbing at this *Heel of Achilles*. And the sides of wagon tracks, when you ride ruts, grind wickedly at vulnerable flanks.

Your eyesight tells you that. Now look at the **SAFETY TREAD** of Goodrich Tires. See how it spreads the Goodrich interlocking safety bars beyond the ball of the tire, and lays extra tread rubber along the sidewall.

Notice further, how the extra wide tread carries on up the sides of the tire, extending beneath the sidestrips.

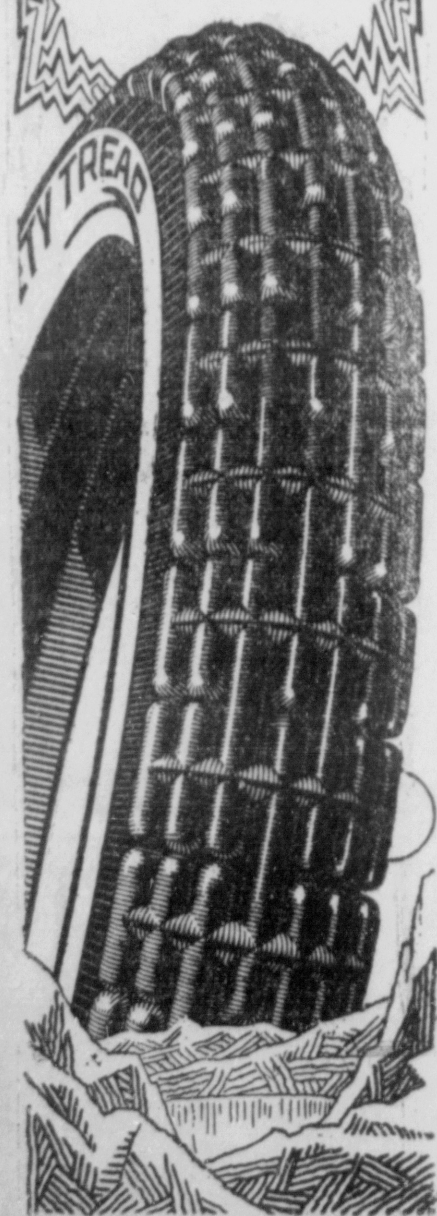

Thus an extra thickness of tough tread rubber fortifies Goodrich Tires at the Heel of Achilles.

Remember, that is one of the many reasons why Goodrich Tires lead in mileage over all roads, rough or smooth.

Buy Goodrich Tires

### HAD HIS DESIRE REALIZED

Clemenceau Wanted to Come Into Contact With the Private Soldier, and He Did!

On one occasion when Premier Clemenceau visited the French army at the front, says a contributor to Je Sais Tout, the general who was his host suggested a sightseeing trip, but the premier declined the invitation. "General," he said, "I did not come here as a tourist; I have only one purpose, and that is to come into direct personal contact with the private soldier. I wish to see him as he faces the enemy."

"In this sector," was the reply, "it is easy to do that. At post 8 there are only four meters between the poilu and his adversary."

"Very well," said Clemenceau, "I wish to go to post 8."

Complete silence reigned in the trenches where the soldiers stood, gun in hand, ready to go "over the top." Their faces were tired and deeply lined; in them were the traces of suffering and of anger. These men asked no favors, but they forgave nothing. In their eyes shone a determined resolution to win, and then to punish. When the party reached the covered passage leading to post 8, the guide told M. Clemenceau that for the remaining distance he would have to crawl upon his stomach, and in that fashion the premier advanced until he met a sentry. There for an instant he forgot that he was not in the tribune of the senate and, speaking loudly, said:

"Well, my friend, what—"

A hard slap cut the sentence short. "Shut up!" hissed the sentry. "Can't you hear that Boche coughing?"

The soldier never doubted that his blow had saved the man who was destined to lead France to victory. He had treated M. Clemenceau like a comrade. The premier had been near indeed to the private soldier; he had come into direct personal contact with him. His desire was realized.—Youth's Companion.

### Color Blindness.

Color blindness proves to be less simple than has been supposed, the defect being one of coloring instead of vision in some cases. As reported by Dr. H. E. Howe of the American Chemical society, eyes quite perfect in ordinary color perception have become weak or fatigued for red and then have responded to the green rays combined with the red from certain red glass. A veteran engine driver properly identified red light near at hand, while at considerable distance the signal appeared green. The disc of the lamp was found to be copper ruby glass and this and some other kinds of red glass permit rays toward the blue end of the spectrum to pass in mixture with the red. The use of selenium ruby glass is advised, its transmission of only red rays insuring that the normal eye will see no green.

### Peculiar Patches in Sky.

Not less than 182 more or less clearly defined dark patches in the sky are recognized by Prof. E. E. Barnard in his latest catalogue. In some cases they are fairly round and regular, in others they are of complicated and contorted form and their appearance and sharpness suggest that they are dark clouds or nebulae cutting off a background made faintly luminous by unseen stars or diffused nebulous matter. Most, though not all, of the dark patches are in the region of the Milky Way, where so much of the material visible in the heavens is concentrated.

### Belt Had Tightened.

Two soldiers from Fort McKinley, Maine, attended a bounteous repast on Thanksgiving day, and after partaking of the most varied assortment of dishes, the hostess inquired if they would have anything else. One soldier gazed longingly at the fruit, candy and ice cream as yet untouched, and remarked: "A little more room please."—Everybody's Magazine.

### LEFTY HIER ON DECK FOR GAME

Brainerd and Little Falls in a Matched Game at Koering Field on Sunday Afternoon

### GREAT PITCHER FOR LOCALS

Team in Good Condition for Hard Game—Game Guaranteed to go Nine Innings

The coming matched game between Brainerd and Little Falls for Sunday afternoon at Koering grounds promises to be a battle royal. Both managers have assured the public each will have out a strong line-up. Manager Stoll of Little Falls said a number of outside players would be tried out by his team. Anderson brothers, pitcher and catcher of Minneapolis, will be the battery for Little Falls.

Brainerd's high-class southpaw, Geo. Hier, arrived Friday from the cities and will take the mound for the locals Sunday, when Little Falls comes to Brainerd for their initial clash of the season. Lefty is in good shape and the Brainerd management are indeed fortunate to share such a fast coming flinger. Several big clubs were after this star pitcher and it was only thru raising the ante that the club secured him on a season's contract. Hier will surely settle the club down and it will take a good team to extend the locals from now on.

The line-up for Sunday will include all of Brainerd's stars, and should Templeton be able to adjust matters he too will be seen in uniform. He has also signed for the season and this strengthens the hitting power of the team.

Little can be learned from Little Falls regarding their line-up although it is understood that they will come Sunday fully prepared to fight to the finish.

The managements have agreed to play out Sunday's game, irrespective of the umpire's decisions, and under no conditions, will either team be pulled off the field before the game is finished. The management was not in the least to blame for Crosby's action last week, and assures their patrons that no game hereafter, will be cut short, regardless of the conditions, and you can go and see Brainerd's new pitching star work without any danger of its being cut short of the usual nine innings.

### Chance for Real Friend in Need.

As the motorist turned a corner in a quiet country road he saw a brother of the wheel just ahead, evidently in trouble. Immediately he slowed down. "Want any help?" he asked, genially. The other motorist looked gratefully at him as he wiped the perspiration off his brow. "I do," he whispered. "See that lady in the car? She's my wife, and I'd be much obliged if you'd answer her questions and keep her amused while I'm seeing to this punctured tire."

### DAILY MARKET REPORT.

### RULES

Rules for battery care are simple and few. Remember and follow them, and your battery will have better health and longer life.

1. Make hydrometer test. If reading is below 1.275 use starter and lights as little as possible for a time.

2. Keep all cells filled with distilled water to a level 1/4-inch above the top of the plates.

3. Never put acid into your battery.

4. If hydrometer reading does not come up to 1.275 on any two successive tests drive around and let us locate the trouble.
